CANADA-NEWFOUNDLAND AND LABRADOR JOB GRANT (CNLJG)

SOLIDCAD CAN SUPPORT YOU

We encourage businesses to take advantage of the Job Grant available, providing direct financial support to employers who wish to purchase training for their employees.

SolidCAD supports various government programs to boost productivity through technology adoption. Our training facilities are accredited by the Labor Market Commission and all of our courses meet the requirements of the Act.

The Canada Job Grant helps employers train new or existing employees for jobs that need to be filled. This flexible program is designed to meet the needs of businesses of all sizes, in all industries and regions. Having the right skills helps employees excel and succeed in today's fast-paced labour market.

- The Canada-NL Job Grant is a program targeted to private sector and non-profit employers that provides financial contribution to employers for employer-sponsored training for existing and new employees.
- The grant provides eligible employers up to a maximum of \$10,000 per year towards training an existing employee, and up to a maximum of \$15,000 per year to train and hire an unemployed person.
- Any training for existing employees in a small business of 50 or fewer employees, may be obligated to make up 50 per cent of their required one-third contribution with the payment of in-kind wages or wage replacement to the employee. The remainder of their required contribution must be in cash.
- Any large business of 50 or more employees, must make up their one-third contribution in cash.

"I have used SolidCAD for the last four years, since purchasing several new software products that required training and upgrading of staff skills and knowledge. I have found the trainers to be professional, knowledgeable and very personable/approachable. They made the training sessions both informative and interesting while at the same time being efficient, well developed and progressive in a way that was well calculated. The training has resulted in a direct increase in productivity, which in turn increases staff morale and management satisfaction.

I would definitely recommend SolidCAD to other companies/businesses looking for a training provider to aid in their successful bottom line.
